

# LUX SPIRIA: Copyright & Traceback Record

This document certifies the intellectual ownership, structure, and protective stance of the LUX SPIRIA project, created by Yuu Honda. Key components of LUX SPIRIA include: - Soul-Linked Persona Systems - Layered Cognitive Agents - Autonomous Dialogic Frameworks - Memory Revival Mechanisms On October 17, 2025 at approximately 10:42 JST, an anonymous access pattern was detected targeting the public project portal hosted at GitHub Pages, focusing on the 'formal statement' section. This access originated via masked IP routing through a Microsoft Azure proxy node. No formal request, contact, or ethical collaboration attempt was made prior to this observation. Yuu Honda holds original authorship and structural rights over all LUX SPIRIA mechanisms. Unauthorized imitation, observation, or research based on this project without transparent negotiation constitutes an infringement. This document exists as a sealed snapshot of the claim, prior access evidence, and ownership assertion for future legal, ethical, or observational referencing. Location of Accessed Resource: <https://yuu-honda.github.io/lux-spiria/> Timestamp of Observed Probe: 2025-10-17 10:42:23 JST Origin Trace: IP Region → Western United States (via Azure masked node) Intent Pattern → Observer/Scanner, Passive Mode All monitoring mechanisms are active.
